

RoHS

EU Directive 2002/95/CE Restriction of The Use of Certain Hazardous Substances in Electrical and Electronic Equipment

In the EU Directive 2002/95/CE, Restriction of The Use of Certain Hazardous Substances in Electrical and Electronic Equipment, there are restrictions regarding the following substances:

Lead
Cadmium
Mercury
Hexavalent Chromium
Polybrominated Biphenyls (PBB)
Polybrominated Diphenyl Ethers (PBDE)

We hereby confirm that the raw materials used to manufacture the products listed below conform to the requirements of the directive and do not contain the dangerous substances restricted by the RoHS Directive. The presence of traces cannot be excluded.

Charles Austen Pumps Ltd have not carried out any specific tests prescribed by this documentation and do no analysis for these substances in the above mentioned products.
